ABOUT US

Mindsys is a global provider of innovative consulting, technology, and outsourcing services. We deliver solutions that leverage the process knowledge of our consultants.

WHY MINDSYS ?

Mindsys combines business experience with technology expertise in order to assist clients with the creation of IT strategy and with the implementation of IT solutions. Our consultants have the backgrounds required to understand and anticipate business needs and translate them into actionable IT strategies and initiatives. Our consultants intimately understand the challenges and opportunities associated with creating IT value. Our approach places strong emphasis on collaboration.

TEAM & ORGANIZATION

Mindsys is managed by an experienced and cohesive leadership team. Many members of the team developed their management skills working within Mindsys and were involved in building Mindsys into the independent commercial enterprise that exists today. Mindsys business leaders combine strategic, operational and financial experience with extensive relationships and expertise within its target industries.

DIVERSITY

Mindsys committed to maintain diverse workforce. We recognize that focus on diversity and equal employment opportunity requires affirmative steps to ensure full utilization of people of all backgrounds who possess the best available skills. We undertake this effort seriously and encourage hiring for diverse workforce which is essential for success in present challenging business environment. Mindsys is the right partner you need to meet your own diversity objectives.

WEB DESIGN SERVICES

The creative team at Web Solutions has the ultimate responsibility for completing web development projects that translate into powerful sales and informational tools for the client. Although we strive to project an image that conveys each client's specific message and brand, we aren't just about aesthetic appeal. Each project incorporates business strategy, usability, functionality, marketing and user psychology so that the end result performs as well as it looks.

MOBILE APPLICATIONS

Get Ingenious & Custom-built Cross-platform Mobile applications creatively designed and developed for all leading-edge Smart phones from Mindsys. Mobile application development for custom made apps builds a strong development area for added functionality and improved performance of smart phones. The most popular Smartphone's are the iPhone, Blackberry and Android, possessing different strengths that suits individual business and personal needs.

IT STAFF AUGMENTATION

Mindsys Inc. has a vast pool of resources working as contractors and consultants with large enterprises spread across the globe. Account management teams working in various time zones are regularly in touch with these resources to get their additional contacts, references and profiles and creating a pool of high quality industry specific profile database. Mindsys Inc. will provide onsite consultants for all the technical staffing services and shall execute the support services either from its location or supply consultants to the preferred location as applicable or agreed upon with the customer.
